

Western  
University  
OF HEALTH SCIENCES

College of  
Graduate Nursing

**August 11 to 20, 2018**

**CGN and The Foundation for Development and Relief for Africa (FREDAfrica)**

As part of CGN's Global Health initiatives, MSNE students for the first time participated in an international experience. This experience provided students an opportunity to be more culturally competent and understand the concepts of social determinants of health and its impact in person, family, and community.

**Uganda field work focus on 1) running a mobile clinic in the remote part of Uganda with local providers and 2) training of their village health workers to sustain healthy communities.**

**We reached over 1000 patients and trained 102 village health workers.**

**Please join us on Wednesday, September 26 in HSC Lecture Hall West from 12:00 pm to 1:00 pm and learn about our journey, challenges, lessons learned and future plans. Be involve and join CGN's endeavors in Global Health locally and internationally. Refreshments will be provided.**
